

Jonald Bataler

Bachelor of Science in Information Technology

CAREER OBJECTIVE

"Fresh graduate with a Bachelor's in Information Technology from Philippine Christian University, seeking an entry-level Web Developer position. While I have no formal work experience, I bring strong foundational knowledge in HTML, CSS, JavaScript, and responsive design, gained through academic projects and personal learning. Eager to grow in a professional environment, contribute to real-world web solutions, and continuously improve my skills to support team and company success."
